REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a film composite having a plurality of layers wherein only the uppermost layer comprises an upwardly projecting double fold, and a contiguous layer of adhesive extends within the laid double portion.

The prior art of record consists of references which teach either a film composites having a double fold that comprises multiple layers, such as the reference of Han et al. (U.S. 4,934,544), or a film composite with a single fold in the uppermost layer, such as the reference of McCarthy (U.S. 5,004,111). References such as Han et al. and McCarthy cannot be combined to teach the claimed film composite without the use of improper hindsight.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
